

This is my right to have this service since it costs me to obtain it and it should be up to me to carry it. The government is trying to take away everything. I am a truck driver; this gives me not only music, weather, news, but also continuous music, that I prefer to listen to and no commercials. This is a big thing when I am out in the no man country and the radio will not pick up a station-XM will. This helps me to plan my trips by listening to the radio before I start my trip. It helps me to determine which route to take if there is snow, rain, or winds. This is a beneficial service! I PAY FOR THE SERVICE, WHY SHOULD YOU HAVE THE RIGHT TO DECIDE IF I SHOULD NOT HAVE IT?
